PROFESSIONAL SUMMARY

Senior Frontend Engineer (React Native / React) with 5+ years building production mobile and web applications for fintech and enterprise clients — including insurance (KYC and policy renewal workflows for a live insurance app on both app stores), HRMS, and ERP systems. Built admin consoles and internal tools used to manage real-time production systems, and worked across React Native, React, Vue, and Flutter — picking the right stack per client rather than defaulting to one.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5/CSS3, Dart

Frameworks: React Native, React, Vue, Nuxt, Flutter, React Hooks, Vuetify

State Management: Redux Toolkit, Context API

Testing: Jest, React Testing Library, Detox, Cypress

API & Data: REST APIs, GraphQL, Axios

Mobile Native & Performance: Native Modules/Bridge, Reanimated, Native iOS (Swift) / Native Android (Kotlin/Java), Performance Optimization, AsyncStorage, Offline-first, Local Storage, Crash Reporting, Push Notifications, Apple Human Interface Guidelines (HIG), ADA / Mobile Accessibility (WCAG)

App Deployment: APK/AAB Signing, Provisioning Profiles, App Privacy, App Store Connect, TestFlight, Google Play Console

Developer Tools: VS Code, Xcode, Android Studio, Firebase, Postman, Browserstack

Version Control & CI/CD: Git, GitHub, Bitbucket, CI/CD, Jenkins, Sonarqube, Jira, Confluence

EXPERIENCE

Xebia IT Architects

Chennai, Tamilnadu

Consultant

July 2026 – Present

- Successfully launched the Chola MS Insurance App on both the Apple App Store and Google Play Store, serving as a core developer for the React Native production environment.
- Implemented secure KYC verification modules and self-service policy renewal flows for Cholamandalam Insurance users.
- Served as a React Native SME, mentoring team members, documenting app architecture and API workflows, and collaborating with cross-functional product stakeholders to translate business requirements into technical specs.

Junior Consultant

June 2024 – June 2026

- Engineered the Chola MS - Xceed using React Native to support agent hierarchy workflows and real-time performance tracking.
- Managed end-to-end mobile release pipelines, including APK/AAB signing, CI/CD workflows, and TestFlight distribution.

Francium Tech

Chennai, Tamilnadu

Solution Consultant

Feb 2023 – June 2024

- Optimized MoneySmart's web performance using Nuxt and TypeScript, resulting in faster SEO indexing and improved Core Web Vitals.
- Spearheaded the development and implementation of FRSQL, a query editing tool designed for efficient manipulation of tables in PostgreSQL (PSQL) databases using React.
- Developed Forward SMS using a React Native-to-Java bridge to implement native-level SMS background processing.
- Built "Francium AI," a cross-platform chatbot using React Native, ensuring UI consistency across iOS and Android.

Turqosoft Solutions

Kochi, Kerala

Software Analyst

July 2021 – January 2023

- Worked on HRMS Software, a truly integrated employee lifecycle management software, using the Vue framework and JavaScript. Leveraged Vuetify UI framework to create a responsive and user-friendly interface, ensuring seamless navigation and interaction for users.
- Worked on ERP software for integrated Enterprise Resource Planning to improve departmental coordination and efficiency, using Vue framework and JavaScript for development.

EDUCATION

B.Tech in Electronics and Communication Engineering

Aug. 2016 – May 2020

Jyothi Engineering College

Cheruthuruthy, Kerala

CERTIFICATIONS

- Certification of completion of internship at BSNL, Thrissur.
- Completed BEC (Language assessment by Cambridge)
