Senior Frontend Engineer (React Native / React) with 5 years of experience delivering high-impact, real-time projects. Proven expertise in the full mobile lifecycle—from architecting React Native applications to launching production-ready apps on the Apple App Store and Google Play Store. Skilled in TypeScript, React, Flutter and Nuxt, with a track record of building complex admin consoles and performance-optimized fintech portals.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5/CSS3, Dart

Frameworks: React Native, React, Vue, Nuxt, Flutter, Redux Toolkit, React Navigation, Jest, Vuetify

Mobile Expertise: Native Modules/Bridge, Reanimated, Push Notifications, APK/AAB signing, Provisioning Profiles, App Privacy

Developer Tools: VS Code, Firebase, App Store Connect, Google Play Console, TestFlight, Postman

Version Control & CI: Git, GitHub, Bitbucket, Jira, Confluence

EXPERIENCE

Xebia IT

June 2024 – Present

Junior Consultant

Chennai, Tamilnadu

- Successfully launched the Chola Customer App on both the Apple App Store and Google Play Store, serving as a core developer for the React Native production environment.
- Architected and implemented secure KYC modules and seamless Policy Renewal workflows, ensuring a high-performance user experience for Chola Mandalam Insurance customers.
- Architected and implemented a comprehensive Admin Console using React and TypeScript to provide "A to Z" management of the mobile ecosystem.
- Developed dynamic configuration tools within the admin suite to manage real-time app content, including promotional banners, video assets, and user-specific displays.
- Built the Chola SuperApp using React Native to facilitate real-time communication and performance tracking for agent hierarchies.
- Handled all production-ready requirements: APK/AAB signing, CI/CD, and TestFlight distribution.
- Collaborated in an Agile environment using Jira and Confluence to bridge technical requirements between field leadership and the development team.

Francium Tech

Feb 2023 – June 2024

Solution Consultant

Chennai, Tamilnadu

- Optimized MoneySmart's web performance using Nuxt and TypeScript, resulting in faster SEO indexing and improved Core Web Vitals.
- Spearheaded the development and implementation of FRSQL, a query editing tool designed for efficient manipulation of tables in PostgreSQL (PSQL) databases using React.
- Developed Forward SMS using a React Native-to-Java bridge to implement native-level SMS background processing.
- Built "Francium AI," a cross-platform chatbot using React Native, ensuring UI consistency across iOS and Android.

Turqosoft Solutions

July 2021 – January 2023

Software Analyst

Kochi, Kerala

- Worked on HRMS Software, a truly integrated employee lifecycle management software, using the Vue framework and JavaScript. Leveraged Vuetify UI framework to create a responsive and user-friendly interface, ensuring seamless navigation and interaction for users. Collaborated with the development team to integrate various employee management modules, enhancing the overall functionality and efficiency of the software.
- Worked on ERP software for integrated Enterprise Resource Planning to improve departmental coordination and efficiency, using Vue framework and JavaScript for development.

EDUCATION

B.Tech in Electronics and Communication Engineering

Aug. 2016 – May 2020

Jyothi Engineering College

Cheruthuruthy, Kerala
